That's why top Green Industry companies use Asset™ Business Management Software to integrate their accounting, production, and sales processes and data using one, scalable solution.

Visit www.include.com/top100 for more information and to get your complimentary copy of ALCA's Crystal Ball Report #23, *Productivity: The Ultimate Competitive Advantage*.

What do companies on
Lawn & Landscape Magazine's
Top 100 list
know that can help
your business grow?

Learn from the Top 100 in the Green Industry

It's no puzzle.

Productivity is the key to lasting business success. And executives at top Green Industry companies understand that year over year growth depends on the ability to keep overhead down while simultaneously increasing revenue. Even more important is the ability to equip your business with the right tools for achieving success now and in the future.

That's why leading companies on Lawn & Landscape Magazine's 2003 Top 100 use Asset Integrated Business Management Software as the foundation for their operational and financial success. Here are just a few reasons they made the switch:

Asset's fully integrated system means you only have to enter data once. Sales, production, and accounting data are linked—no rekeying or lost information.

Over 300 built-in reports (including job cost and financial statements) make it easy to access vital information for all parts of your business. You'll know immediately which jobs are most profitable.

Continuous updates to software functionality, training, and service offerings ensure you'll never need to replace Asset.

Productivity is the key.

Start moving your company closer to greater productivity and profitability!

Visit www.include.com/top100 or call (800) 475-0311 to learn more about how Asset can help your company grow, and to register for your complimentary copy of ALCA's Crystal Ball Report # 23, *Productivity: The Ultimate Competitive Advantage*.

Asset's fully intergrated, modular architecture provides flexibility and increased productivity.
